Registration	<p>Registration is open now and until 31 May 2024 or until all places are taken</p> <p>Further information can be found on our Homepage: https://www.hft-stuttgart.com/studies/international/hft-summer-school-2024#subnavigation</p> <p>Registration Link: https://eveeno.com/hftsummerschool2024</p>
Further details	<p>Working in international contexts and international teams is the future of work in our globalized world - regardless of subject or industry. Start here! Expand your skills in Managing International Projects, Intercultural Communication and Group Work, as well as in German Language! Additionally, you will have the opportunity to implement your knowledge through working on your own project within an international team. You will also be able to benefit from ideas and inspiration from business partners in one of the economically strongest regions of Germany</p> <p><u>Why take part in the International Summer School 2024 of HFT Stuttgart?</u></p> <ul style="list-style-type: none"> • Great to explore: We're located in the heart of Europe and our university is in the city center of Stuttgart, the capital city of Baden-Württemberg! • Experience working in an international team with students from Germany and all over the world! • Enjoy a perfect combination of brief theoretical input sessions in workshop surrounding, up-to-date teaching methods and practice-oriented applications! • Gain interesting insights through visiting business partners and discuss with experts! • Immerse yourself in German culture through our cultural and leisure activities! • And why not combine your Summer School participation with travelling through Germany or Europe?* (<i>*not included in the fee; please consider the respective visa requirements if you want to travel to countries other than Germany</i>) <p><u>HFT Stuttgart - Our mission:</u></p> <p>The Hochschule für Technik Stuttgart has been training students since 1832 and has long since become a modern University of Applied Sciences with more than 35 bachelor's and master's degree courses in the areas of "Architecture and Design", "Civil Engineering, Building Physics and Business Management" and "Geomatics, Computer Science and Mathematics". Inter-faculty projects, small learning groups, professional experiences of all professors, contacts to numerous companies in Stuttgart and its attractive business location, characterize the university. As well, students appreciate the central inner-city campus! More than 80 partner universities belong to our worldwide network and the excellent career prospects of the graduates are proven in annual studies.</p>
